

LETTER OF AUTHORIZATION

I hereby authorize Catalyst Connection (and/or its agent) to manage, solicit and negotiate electricity proposals on my behalf. This authorization allows Catalyst Connection to grant 3rd party suppliers that are in receipt of this document to request and obtain the member's invoice, interval, RTO data, and billing history from DLCO or PPC. I understand that pricing obtained through Catalyst Connection's process *may* include a supplier paid transaction fee for their services. This authorization supersedes any similar authorization currently in place. I understand that I am under no obligation to accept *any* proposal from Catalyst Connection.

Yes, I would like to know how Catalyst Connection can help my company go GREEN!
