

## BRIGGS WHITE | TECHNOLOGY MANAGER, NETL

626 Cochrans Mill Road  
Pittsburgh, PA 15236-0940  
Phone: 412-386-446  
Email: [Briggs.White@netl.doe.gov](mailto:Briggs.White@netl.doe.gov)

Dr. White is serving as a Technology Manager at NETL managing a portfolio of approximately 60 research projects and annual appropriations of \$28 million. Currently, he manages a program on High Performance Materials, including Advanced Manufacturing and Workforce topics. He also manages a program on Water Management and is a key point of contact for Energy Storage technology related to fossil energy applications. These activities serve to accelerate R&D progress and develop concepts and technologies that enable improvements in fossil-based power generation.

He has also served as the Chief of Staff for NETL's Science and Technology directorate – reporting directly to NETL's Chief Research Officer, as well as Chief of Staff for the Technology Development and Integration Center, NETL's project management organization.

He holds degrees in Materials Science & Engineering from Alfred University (BS), the University of Florida (MS, PhD), and the Univ. of Rome (PhD) with an emphasis on solid-state high-temperature electrochemical devices.
