

## THRIVING TOGETHER.

Are you in need of discovering and developing your leadership skills and confidence? Are you seeking to learn from others how they have overcome the systemic challenges facing women in leadership? If you're a woman in manufacturing, you already know you've surpassed the statistics in an underrepresented industry, but you may be seeking to uncover insights into how to propel yourself and your organization forward. Catalyst Connection's Women in Leadership group has created the Lead2Succeed program to help bring together a diverse group of women in manufacturing to form relationships, find mentors, and ultimately gain the tools and calmness you need to move forward on your journey to being a better leader.

### **LEAD2SUCCEED SUPPORTS YOU AS YOU DESIGN AND DEVELOP YOUR PERSONALIZED VALUE AND COMPETENCIES IN YOUR MANUFACTURING CAREER PATH.**

Throughout this program, you'll gain access to a larger network of women who have both similar and different goals in the manufacturing industry. You'll hear from speakers across a number of manufacturing disciplines, tour a variety of manufacturing organizations if/when possible, and receive one-on-one coaching to help reach the career goals specific to you.

#### **WHAT TO EXPECT**

- Access to a network of mentors and women-in-leadership peers
- Support towards next steps in career
- Guest speakers and thought leaders from a spectrum of job functions
- A "reflections journal" for continuous learning and recording thoughts
- Participation in a Strength Finders Assessment
- Participation in DDI powered Women in Leadership competencies training (optional)
- 6 group meetings
- 6 one-on-one coaching sessions

#### **REGISTRATION—REGISTER BY APRIL 15TH**
